

I. Introduction

The State Board of Proprietary School Registration (“Board”) was created in 1989 by House Bill 153 to replace the State Board of School and College Registration which was originally created by the Ohio Legislature in 1970. The changes brought about in 1989 by House Bill 153 gave the Board more regulatory authority over proprietary (private, for-profit, post-secondary) schools and colleges in Ohio. It also changed the composition of the Board to include more representatives from the public and it increased the number and responsibilities of its field staff.

In recent years, increased oversight by the Board, as well as by national accrediting agencies and the United States Department of Education, has resulted in many changes to the proprietary school industry. These changes can be seen most dramatically in the reduction of proprietary schools registered with the Board since 1989. However, the number of registered schools has leveled off over the last few years. Those numbers are reflected in Chart 1 below.

Chart 1

II. General Information about the State Board of Proprietary School Registration

A. *Board Responsibilities*

The Board's general responsibilities include:

1. Maintaining the viability of registered schools through oversight of their programs and curricula along with their business practices, including advertising and recruiting.
2. Monitoring schools that provide educational and related services to a population of students who might not be served in the non-profit or public sector.
3. Protecting reputable schools from unfair competitive practices of unscrupulous school operators and their representatives.
4. Protecting the investment of students who have paid for education and training services.
5. Protecting the citizens of Ohio from fraudulent and unscrupulous school operators and their representatives.

In carrying out these responsibilities, the Board's goals are to offer help, encouragement, and guidance to registered schools so that those Ohioans who choose them will be assured of quality education and training. In that process, the Board strives to uniformly deliver a consistent, fair, and equitable administration of its responsibilities in order to encourage maximum performance, which leads to gainful employment or career enhancement for each graduate of an Ohio proprietary school.

This Annual Report is testimony to the positive impact of Ohio's proprietary institutions. The Board is proud of its role in the regulation of this important post-secondary sector. It feels strongly that, with their continued cooperation, Ohioans can remain assured that their investment in a proprietary school is one on which they can depend.

B. The Board Structure

The organizational structure and composition of the Board is established by **Section 3332.03** of the Ohio Revised Code, and the membership consists of the following:

1. The State Superintendent of Public Instruction or an Assistant Superintendent designated by the Superintendent;

\$ During Fiscal Year (“FY”) 2000, Dr. Steven Puckett, Assistant Superintendent for the Ohio Department of Education, served in this capacity.

2. The Chancellor of the Ohio Board of Regents or a Vice Chancellor designated by the Chancellor;

\$ During FY 2000, Dr. Garrison Walters, Vice Chancellor of the Ohio Board of Regents, served in this capacity.

3. Five members appointed by the Governor, with the advice and consent of the Senate, including:

- a. Two of the members must be from vocational and technical schools:

\$ During FY 2000, Mr. Charles Kramer of West Side Institute of Technology, and Mr. Jeffrey Barnes of Hondros College, served as appointed school representatives.

- b. Two public members without affiliation to regulated schools;

\$ During FY 2000, Mr. Vincent Francioli from Cleveland, and Dr. Leonard Kingsley from Toledo, served as the Board's public members.

- c. One member who has graduated from a regulated school with a Baccalaureate or an Associate Degree, during the past five years.

\$ Ms. Jessica Holleran of Columbus, a graduate of DeVry Institute of Technology, served as the Board's student representative through November, 1999. Ms. Betty Steward, a graduate of Ohio Business College, served as the Board's student representative beginning in March, 2000.

C. Board Statutory Responsibilities

Ohio Revised Code Sections 3332.01 through 3332.15 require that the Board:

1. Establish minimum standards for the regulation and operation of proprietary schools, including but not necessarily limited to standards to insure school financial stability.
2. Issue certificates of registration and program authorization to proprietary schools.
3. Suspend or revoke the certificates of registration or program authorization under certain conditions.
4. Establish minimum standards for certificate, diploma, and degree programs offered by proprietary schools.
5. Grant permits to agents and/or suspend or revoke an agent's permit.
6. Establish minimum standards for agents, including a code of ethics.
7. Monitor recruitment and admission practices of schools to ensure compliance with the law and the rules of the Board.
8. Adopt rules requiring all schools to provide applicant students, prior to signing an enrollment agreement, written information concerning obligations on the part of any student obtaining a grant or loan, the school's placement rates for each of the preceding three years, and other information the Board deems pertinent.
9. Adopt a rule requiring all schools to include, in the enrollment agreement, notice that the student may direct any problems he/she is having with the school, or complaints he/she has about the school, to the Board.
10. Adopt a rule requiring a uniform tuition refund policy.
11. Adopt a rule establishing minimum standards for all faculty and instructional staff in all instructional programs at a school.
12. Report annually to the Governor and General Assembly on the activities of the Board and proprietary schools and make legislative recommendations when necessary to enable the Board to better serve the student population and the schools registered with the Board.

III. Overview of Board Activities for Fiscal Year 2000

During Fiscal Year 2000, the State Board of Proprietary School Registration continued to move forward with many of the internal changes that were started in Fiscal Year 1997. Some of the significant changes and other activities that took place during FY 2000 included:

School Director Training

During FY 1999, the Board implemented its school director training seminars in an effort to assist school directors in understanding the Board's rules and procedures. The Board continued to move forward with its school director training seminars in FY 2000. The Board held one school director training seminar during FY 2000, on November 8th at ITT Technical Institute in Norwood. The Board has scheduled three additional seminars for FY 2001.

Technology and Communications Initiatives

The Board continues to develop its web site that became operational in August 1998. In January 1999, the Board added a searchable schools database to its web site that allows consumers to access information concerning registered schools and provides active links to many individual school web sites. During FY 2000, the Board has made available via download all school forms, administrative rules, board meeting minutes, and a variety of other information. The Board's web site is located on the State of Ohio home page and the address is <http://www.state.oh.us/scr/>.

Closed School Records

During FY 2000, the Board entered into a contract with Fireproof Records Center to assist the Board in developing a plan for addressing the long-standing problem of storing and accessing records from closed schools. During the course of the Board's review several visits were made to locations where the closed school records are kept and an effort was made to accurately estimate the quantity of records at each location. Ultimately, Fireproof Records Center issued a report to the Board at the conclusion of FY 2000 detailing several recommendations for addressing the current situation.

Administrative Rule Review

During FY 2000 the Board completed its review of eight Administrative Rules. The following rules were reviewed during FY 2000:

Rule 3332-1-09	<i>Rescind and New</i>
Rule 3332-1-10	<i>Rescind and New</i>
Rule 3332-1-17	<i>Rescind and New</i>
Rule 3332-1-171	<i>Rescind and New</i>
Rule 3332-1-22	<i>Rescind and New</i>
Rule 3332-1-221	<i>Rescind and New</i>
Rule 3332-1-24	<i>Rescind and New</i>
Rule 3332-1-25	<i>Amend</i>

These rules were subject to review by the Board's rules review committee that presented its proposed recommendations to the Board on October 27, 1999. On December 8, 1999, the Board adopted the rule changes as proposed by the committee. The administrative rules were formally submitted to the Joint Committee on Agency Rule Review (JCARR) on December 22, 1999 and were subject to a public hearing before the Board on January 26, 2000. On February 22, 2000 the proposed rule changes were approved by JCARR and the new rules became effective April 17, 2000.

School Oversight:

The Board and its staff continued to carry out its statutory oversight duties by taking the following actions during FY 2000:

- ! Issued 626 Agent Permits
- ! Approved 31 New Schools
- ! Approved 262 New Program, Degrees and Majors
- ! Renewed 84 Schools
- ! Renewed 284 Programs and Degrees
- ! Approved 7 Learning Centers
- ! Approved 59 Program Name Changes and Revisions
- ! Approved 15 School Name and Address Changes
- ! Approved 23 New School Directors

Many of these Board actions required on-site visits by consultants and staff and, as a result, the Board's staff and consultants made over 310 site visits to various schools throughout the state during FY 2000. The Board also continued its efforts to effectuate the flow of communication between the Board, schools, and the general public. In this regard, the Board issued four newsletters during FY 2000, and continued to update its information technology to assist the Board with making more information available electronically during the next few years. Other activities of the Board during FY 2000 including revenue and expenditures, investigations, and the Student Tuition Recovery Fund, are detailed elsewhere in this report.

IV. Data Analysis for Fiscal Year 2000

Contained below is a report and analysis of the data accumulated by the Board for Fiscal Year 2000. This information is presented in an attempt to accurately track the activities of the Board as well as the activities of the schools registered by the Board. The cumulative proprietary school data has been compiled from an analysis of the annual reports submitted by each school registered by the Board.

A. *Registered Schools*

During FY 2000 there were 242 schools registered with the Board. In addition, the Board registered 11 learning centers. These numbers can be compared with previous years in Table I below.

TABLE I

Fiscal Year	Number of Schools	Number of Learning Centers
1996	219	n/a
1997	234	6
1998	224	205
1999	218	8
2000	242	11

The reduction in registered schools and increase in learning centers during FY 1997-2000 can be directly attributed to the activities of one school, H&R Block. During FY 1998, H&R Block registered 195 learning centers and reduced their number of registered schools by 19, following the Board's efforts to bring the school in compliance with the Board's learning center rule. However, during FY 1999, H&R Block became exempt from registration with the Board when they stopped charging tuition. Thus, they did not renew their learning centers during FY 1999.

Of the 242 institutions registered with the State Board during FY 2000, 129 were accredited by accrediting agencies recognized by the United States Department of Education. The following table is a breakdown of these accredited schools, and their accrediting agency.

TABLE II

	ACCSCT	ACICS	ABHES	NCA	DETC	ACCET
Number of Schools	52	50	12	9	4	2

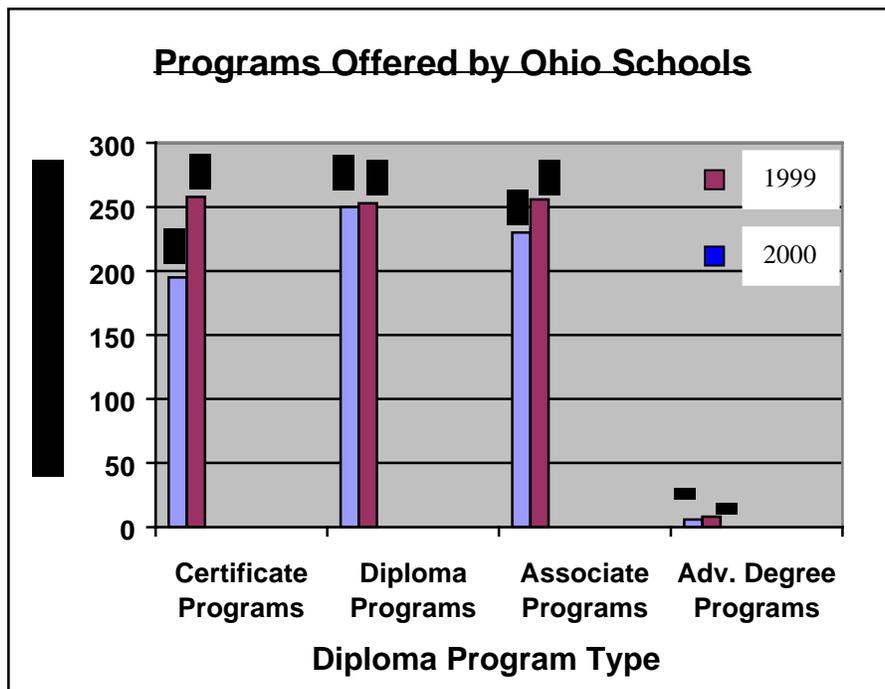

B. *School and College Programs*

Pursuant to Ohio Administrative Code Section 3332-1-16, the schools and colleges regulated by the Board offer four types of registered instructional programs that can range in length from a few days to over four years:

1. **“Certificate Program”** means generally one or more technical courses usually completed in one to twenty-six weeks, normally with a single skill objective.
2. **“Diploma Program”** means a program of instruction offering technical and basic course work. The program generally ranges in length from six hundred to fifteen hundred clock hours; or more than forty but less than ninety quarter credit hours; or more than twenty-seven but less than sixty semester hours.
3. **“Associate Degree Program”** means an organized group of technical, basic, and general education courses which full-time students may complete in a minimum of two academic years, six to eight academic quarters, or four semesters.
4. **“Advanced Degree Program”** means a program of instruction at the baccalaureate, masters or doctorate level of instruction that is approved by the Board of Regents pursuant to Ohio Revised Code Section 3332.05.

During FY 2000, Ohio’s proprietary schools offered a total of 775 programs. A breakdown of those programs is contained in Chart 2 below.

Chart 2

C. Enrollments and Student Characteristics

During the FY 2000, proprietary schools enrolled 59,705 students in programs approved by the Board. Compared to traditional higher education students, proprietary students are more likely to be economically disadvantaged, female, minority, independent of parental income, enrolled in a high school vocational program, and to have scored lower on academic ability tests.

TABLE III
Enrollment Picture for all Registered Schools for FY 2000

Ethnic Designation	Male	Female	Total
Non-Resident Alien	37	13	50
Black/Non-Hispanic	3,020	5,420	8,440
American Indian & Alaskan	57	39	96
Asian & Pacific Islander	245	141	386
Hispanic	443	434	877
White/Non-Hispanic	12,455	13,567	26,022
Race Unknown	2,413	5,116	7,529
Ethnic Group/Gender Unknown			16,305
Total	18,670	24,730	59,705

TABLE IV
Number of Students Enrolled in Programs Offered by Registered Schools

Programs	In-State	Out-of-State	Total
Advanced Degree	3,217	63	3,280
Associate Degree	15,829	2,453	18,282
Diploma	24,204	2,798	27,002
Certificate	10,909	232	11,141
Total Programs	54,159	5,546	59,705

D. Placement

Placement statistics compiled in this report indicate that 89% of the individuals who complete their education find employment following their graduation. Ohio’s proprietary schools have been of great assistance in helping unemployed adults to find jobs. Some of the schools work closely with government agencies like WIA and Vocational Rehabilitation, and in some cases, employers, to assist in paying the cost of these training programs. Through this effort, proprietary schools are removing some people from public assistance and once again making them taxpayers.

The following table indicates the general placement activities of the schools registered with the State Board of Proprietary School Registration.

TABLE V
Placement

Type of Program	Adv. Degree	Associate	Diploma	Certificate	Total
Total Number of Students	3,280	18,282	27,002	11,141	59,705
Completions	387	3,405	4,410	8,612	16,814
Withdrawals	1,234	5,502	7,751	1,540	16,027
Still Enrolled	1,658	9,330	14,841	1,990	27,820
Placed Related	350	2,762	2,586	4,648	10,346
Placed Un-Related	0	101	155	290	546
Not Placed	38	259	479	640	1,416
Not Available for Placement	4	328	1,190	3,034	4,552
Placement Rate	91%	93%	85%	88%	89%

E. Economic Impact on Ohio

Ohio's 242 registered proprietary schools provided education and training to 59,705 students during FY 2000. Nearly 20,000 students graduated during the period. The schools are a positive, economic asset to the State, both as businesses and as educational institutions for several reasons.

First, proprietary school graduates make a continuing contribution to the economy because of their improved productivity. Graduates of these institutions have higher personal incomes and pay more taxes. Second, proprietary schools are businesses that pay salaries, buy goods and services from other businesses and pay taxes to the local, state and federal government. The well-established model developed by the American Council on Education indicates that, for colleges and universities, every dollar in total operating expenditures generates approximately \$1.20 of local economic activity after taking a "multiplier" of expenditure cycles into account.¹ Using this calculation we can estimate that proprietary schools in Ohio generated more than \$121 million of local economic activity during FY 2000. We can also estimate using these same calculations that Ohio's proprietary schools contributed more than \$10 million as institutions in taxes to support the local, state, and federal government. (This figure excludes income taxes paid by employees on their salaries.)

Finally, using calculations derived from a recent economic study of proprietary schools in California, we can estimate the total additional education costs that Ohio would incur if proprietary schools did not exist and other public and private institutions were forced to absorb the students currently attending proprietary schools. Using the calculations from the California study, we estimate that it would have been necessary for the state to appropriate an additional \$36 million for higher education during FY 2000 to cover the costs of educating students currently attending proprietary schools.

¹ See Hodgkin, Robert "Estimating the Impact of a College or University on the Local Economy". American Council on Education, October 1990.

F. School Employees

Another part of the economic impact of our schools and colleges is the employment the schools provide for Ohioans. During FY 2000, proprietary schools provided employment for 4,203 Ohio citizens with total wages of over \$71,000,000.

School employees can be categorized as Administrative, Faculty, Professional, Technical, and Other (general support staff). The following table provides a picture of employees that are employed to operate and teach in the proprietary schools that are registered with the State Board of Proprietary School Registration.

TABLE VI
FY 2000 Employees

Full-Time Employees				Part-Time Employees			
	Male	Female	Total		Male	Female	Total
Admin.	189	247	436	Admin.	19	62	81
Instructional	492	256	748	Instructional	753	652	1,405
Professional	79	262	341	Professional	21	45	66
Technical	57	64	121	Technical	35	58	93
Agent	110	139	249	Agent	5	34	39

Total	986	1,129		Total	984	1104	
Grand Total			2,115	Grand Total			2,088

V. Fiscal Analysis of Board Activities

A. Revenue and Expenditures

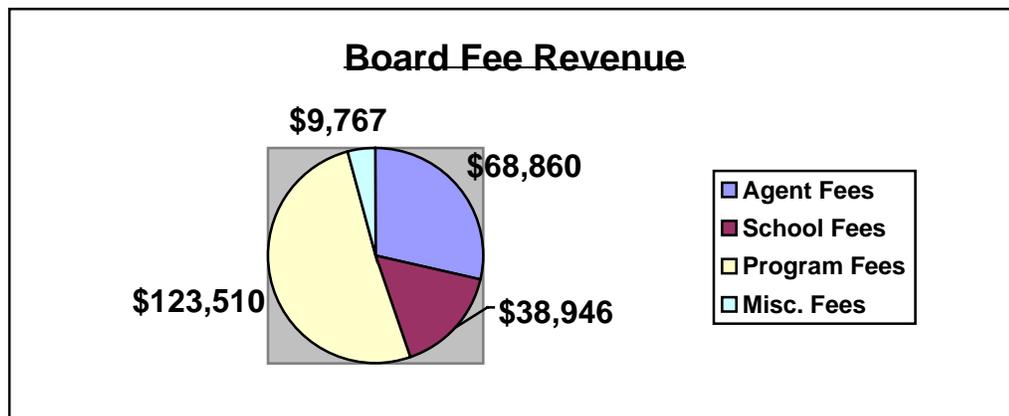

The Board's revenue is generated from fee schedules adopted and approved by the Board. The following table indicates a five-year comparison of revenue and expenditures by the Board.

TABLE VII

Fiscal Year	1995	1996	1997	1998	1999	2000
Earned Revenue	\$219,108	\$208,180	\$255,441	\$239,566	\$261,399	\$241,083
Expenditures	\$537,212	\$554,184	\$463,813	\$373,763	\$300,220	\$397,383
State Contribution	\$318,104	\$345,004	\$208,372	\$134,197	\$98,821	\$156,300
General Revenue Funds	59%	63%	45%	36%	21%	39%
Board Revenue	40%	37%	55%	64%	15%	61%

As Table VII shows, revenue for FY 1997-2000 was higher than the revenue the Board generated during previous fiscal years. This can be attributed mainly to the fee increase implemented by the Board during FY 1997. In addition, expenditures remain lower as a direct result of the Board's downsizing efforts that reduced the size of the Board's staff. This increase in revenues and decrease in expenditures also reduced this agency's reliance on state general revenue funds during FY 1998-2000. The following Chart shows a breakdown of the \$241,083 of revenue generated by the Board during FY 2000:

Chart 3

VI. Division of Investigation and School Compliance Annual Report for FY 2000

The following report is intended to provide an overview of investigative activity initiated by the Division of Investigation and School Compliance during FY 2000. The report contains statistical data regarding the volume of complaints and an outline of public action taken by the State Board of Proprietary School Registration.

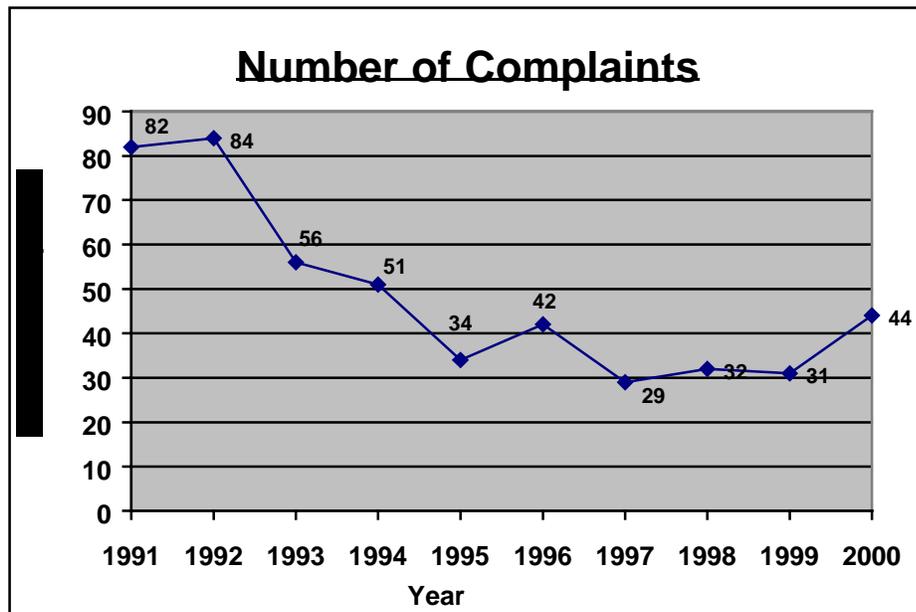

Complaints are broken down as follows:

1. **Student Complaints**
2. **Non-Registered Schools**
3. **Investigative Inquiries**

In addition to these categories, the Division of Investigation and School Compliance, is also responsible for public information requests and assisting in responding to general correspondence and other inquiries received by the Board.

The number of student complaints has dropped significantly since the Board began tracking complaints in FY 1991. That drop is illustrated in Chart 4 below.

Chart 4

A. FY 2000 Statistical Data

During FY 2000, the State Board of Proprietary School Registration, Division of Investigation and School Compliance initiated a total of 116 cases, categorized as follows:

TABLE VIII*

Fiscal Year	1998	1999	2000
Student Complaints	32	31	44
Non-Registered Schools	22	12	13
Inquiries	34	59	59
Total	88	102	116

*A complete summary of each complaint is available upon request.

The number of student complaints rose slightly in FY 2000 however the nature of the complaints remained fairly constant and the complaints, for the most part, represented isolated problems between individual students and schools. The nature of the student complaints, which were received in FY 2000, can be broken down into the following general headings:

TABLE IX

Allegation	Number of Complaints
Poor quality of education	6
Unethical recruitment or advertising	9
Unfair school administrative policies	9
Failure to provide student services as promised	3
Financial Aid problems	7
Failure to make a proper refund	6
Conflicts with School Personnel	5

The 13 non-registered schools that were reported in FY 2000 can be broken down as follows by programs offered:

TABLE X

Type of Program	Number of Cases
Technical	1
Computer	10
Other	2

Inquiries, which are preliminary investigations initiated by the Board under the authority of Section 3332.09(D) of the Revised Code, but that are not student complaints, involve the following types of cases:

TABLE XI

Nature of Complaint	Number of Cases
Advertising or recruitment issues	5
Financial Issues	1
Non-Registered Schools	41
Other Issues	9

B. Public Action

During FY 2000 the Board initiated formal disciplinary action against 3 schools. The vast majority of these cases involved a school's failure to timely submit fees and/or other required documentation. Most of the cases were resolved informally by obtaining voluntary compliance from the schools

VII. Student Tuition Recovery Fund Authority

A. *General Responsibility*

The Student Tuition Recovery Fund Authority ("STRFA") came into existence in 1991. The purpose of the Authority is to protect students of any school registered by the State Board of Proprietary School Registration from tuition loss for the term, whether due to business failure or any other reason for which the student is not legally responsible.

The STRFA disburses monetary awards to students who were enrolled in institutions that went out of business and did not return to those students their pre-paid tuition or provide a means of completing their program of instruction up to the amount of their pre-paid tuition.

The STRFA consists of five members:

1. The Executive Director of the State Board of Proprietary School Registration;
2. The Executive Director of the Ohio Council of Private Colleges and Schools;
3. The Treasurer of the State or his/her designee;
4. The Chairman of the Senate Committee that primarily deals with education; and
5. The Chairman of the Committee of the House of Representatives that primarily deals with education.

Each registered school is required to pay an annual assessment into the Fund, based on each school's prior year's gross tuition receipts. The State Board of Proprietary School Registration has the responsibility to collect these funds and may pursue any lawful means of assuring that students of any school registered by the State Board do not suffer tuition loss as a result of a business failure or other default of a school. This may include lawsuits against a school or any individual who may reasonably have liability as a result of the default, in which the Attorney General shall advise and represent the Board.

B. *Fiscal Year 2000 Activity*

During FY 2000 the STRFA paid one student claims totaling \$945. The total balance contained in the fund at the end of FY 2000 was \$1,338,788.

APPENDICES:

1. **Appendix A-1:** A listing of all schools and colleges in alpha order.
2. **Appendix A-2:** A geographical listing of all Ohio schools by county.
